Announcement by

Azure Power Energy Ltd

(incorporated in Mauritius with limited liability)

August 2, 2024

Azure Power Energy Ltd, a limited liability company incorporated in the Mauritius (the "**Company**"), hereby announces the early results of its previously announced offer to purchase for cash (the "**Tender Offer**"), upon terms and subject to the conditions set forth in the Tender Offer Memorandum dated July 16, 2024 (the "**Tender Offer Memorandum**"), its outstanding 3.575% Senior Notes due 2026 issued by the Company (the "**Notes**") issued under the indenture dated April 19, 2021, as supplemented on December 8, 2023 (the "**Indenture**"). Capitalised terms used but not defined herein shall have the meanings given to them in the Tender Offer Memorandum, which is available on the Tender Offer Website (<https://projects.sodali.com/azurepower>), subject to eligibility and registration.

Early Results of the Tender Offer

The Tender Offer commenced on July 16, 2024. The Early Tender Deadline expired at 5:00 p.m. (New York City time) on August 1, 2024.

As at the Early Tender Deadline, the Company received valid tenders under the Tender Offer which had not been validly withdrawn in respect of the Notes with an aggregate principal amount of US\$325,314,239, representing approximately 98.23% of the total outstanding principal amount of the Notes after application of the Pool Factor of 0.8289.

Increase of Maximum Acceptance Amount

The Company hereby in its sole discretion has decided to increase the Maximum Acceptance Amount to US\$8,000,543 (the "**Amended Maximum Acceptance Amount**").

Tender Consideration

The Tender Consideration for Notes validly tendered and not validly withdrawn at or prior to the Early Tender Deadline is US\$1,000 for each US\$1,000 in principal amount of the Notes.

As the Amended Maximum Acceptance Amount was exceeded at the Early Tender Deadline, the Company will accept for purchase the Notes validly tendered and not validly withdrawn at or prior to the Early Tender Deadline in the amount of US\$8,000,543 (after application of the Pool Factor) by applying a Scaling Factor of 2.506%. The principal amount of each Noteholder's validly tendered Notes in the Tender Offer to be accepted for purchase by the Company will be determined by multiplying such Noteholder's tendered Notes by the Scaling Factor, rounded down to the nearest U.S.\$1,000. If after applying such Scaling Factor and rounding down to the nearest U.S.\$1,000, any Noteholder would be entitled to a return of a portion of tendered Notes that is less than the minimum denomination of U.S.\$200,000, the Company has decided in

its sole discretion and in accordance with the terms of the Tender Offer to reject all of the Notes tendered by such Noteholder without applying the Scaling Factor. All Notes not accepted as a result of scaling will be returned to the Noteholder on the Early Settlement Date.

Settlement and Notes Remaining Outstanding

Early Settlement Date is expected to be on or about August 8, 2024. Following the Early Settlement Date, approximately US\$323,164,072 in aggregate principal amount of the Notes will remain outstanding (following application of the Pool Factor).

As the Amended Maximum Acceptance Amount was exceeded at the Early Tender Deadline, the Company will not accept for purchase any Notes tendered after the Early Tender Deadline.

The Tender Offer will expire at 5:00 p.m. (New York City time) on August 13, 2024, unless, at the sole discretion of the Company, extended, re-opened, or amended, subject to applicable laws and as provided in the Tender Offer Memorandum.

All correspondence sent to the Information and Tender Agent should be directed to the contact information below. Requests for additional copies of documentation may be directed to the Information and Tender Agent at the e-mail address and telephone number specified on below. Electronic copies of all documents related to the Tender Offer will be made available online at <https://projects.sodali.com/azurepower>, subject to eligibility and registration.
